Suicide Prevention Program

What if I am having thoughts of hurting myself?

DO NOT REMAIN ALONE. Reach out to your family, a trusted friend, or a fellow shipmate. Having suicidal thoughts does not make you “psychotic” or “insane.” Being upset, grief-stricken, depressed, or even in disrepair are all NORMAL emotions that everyone can relate to.

What if I know someone contemplating suicide?

Warning signs of suicide are not always obvious. If you believe your shipmate might be in trouble, ACT:

- ASK if someone is thinking about suicide.
- Let them know you CARE.
- Get them TREATMENT as soon as possible. Life counts!

Does ASU offer counseling services?

Yes, ASU offers counseling services that are available 24/7. ASU Counseling Services offers confidential, personal counseling and crisis services for students experiencing emotional concerns, problems in adjusting, and other factors that affect their ability to achieve their academic and personal goals.
